MOSLEY FOUNDRY

Both Hands on the Wheel

Getting started. Lead yourself. Develop others. Build a life by design.

1 Sign in

2 MINUTES

1. On your phone or computer, go to mosley-foundry.vercel.app
2. Enter your email and the temporary password your coach sent you.
3. Pick your own password. Use at least 10 characters.

Your sign-in email _____ Your coach _____

Tip: on a phone, use Share, then Add to Home Screen, so the app is one tap away.

2 Your first session

ABOUT 15 MINUTES, ONE TIME

Pick your pathway: Personal Leadership, Leading Others, or Entrepreneurial Leadership. Then the app walks you through four steps.

FORGE who is behind the wheel

1. **Who I am.** Name the role this is about and the kind of change. Describe who you are from five sides, then say it in one statement.
2. **Where I am.** Score the five pillars from 1 to 5, then pick one to work on.

DISCIPLINE BY DESIGN how you drive

3. **My road.** The behavior that shows it, one routine, and one person who will know if you did it.
4. **30 days.** One behavior, two minutes a day.

You can skip any step and come back. The bar at the top of each screen shows what is done and what is next.

3 Each day

2 MINUTES

- Open the Today screen.
- Tap Done, Partial or Not yet for today's practice.
- If you like, tap whether you showed up as who you are.

A missed day is just information. Log it and keep going.

4 Each week

5 MINUTES

- Open the weekly reflection.
- Answer: did I do what I said I was going to do?
- Check the commitments you kept, and write one line about next week.

5 Every 90 days

A SEASON

- With a coach, your 30 days are part of a season: three months back to back.
- On day 30, go deeper on the same pillar or pick another one.
- After month 3, review the season with your coach: your scores then and now, and who you are.

6 What is private

- Your coach sees nothing until you turn it on in Sharing.
- Your private journal can never be shared with anyone.
- Your employer sees group totals only, such as attendance.

7 If you need help

- Open Guide in the app for short steps on every screen (on a phone, under More). Forgot your password? Ask your coach.
- The AI companion can help you think something through. It is an AI and it does not replace your coach.
- The whole story behind FORGE is in the book, *Both Hands on the Wheel*: a.co/d/00SJkS0r

Forge Ahead.
